

Life is a HUMAN RIGHT

Three bills to protect the unborn and women and men from the harms of abortion have been introduced in the Nebraska Legislature:

LB 933: HUMAN LIFE PROTECTION ACT

Introduced by Senator Joni Albrecht, the Human Life Protection Act will protect the right to life of every person by prohibiting all abortion **the moment *Roe v. Wade* is overturned.**

LB 781: HEARTBEAT ACT

Introduced by Senator Julie Slama, the Heartbeat Act will **save countless lives** by protecting the unborn from abortion when a heartbeat is detected.

LB 1086: CHEMICAL ABORTION SAFETY PROTOCOL ACT

Introduced by Senator Suzanne Geist, LB 1086 protects lives—born and unborn—by improving reporting requirements and safety standards for women, prohibiting abortion-by-mail drugs, and ending chemical abortions after 7 weeks gestation.

Love THEM BOTH

We envision a Nebraska where **every life** is celebrated, valued, and protected.

Both **women and children** are worthy of love.

LB 933, LB 781, and LB 1086 state that no woman who seeks or obtains an abortion shall be held liable. Criminal and civil penalties apply only to abortionists who violate the law.

LB 933 and LB 781 allow for interventions when a mother's life is in danger. The bills provide that doctors do everything reasonable to save both mother and child.
