

A THREAT TO WOMEN IN NEBRASKA INITIATIVE 439

The abortion industry is attempting to enshrine a right to abortion in the Nebraska Constitution with Initiative Measure 439 that would legalize late-term dismemberment abortions, eliminate health and safety standards, remove parental notification requirements, put girls at greater risk for human trafficking, and pave the way for taxpayer-funded abortion.

Women, children, and families in Nebraska deserve real love and support, not dangerous proposals that jeopardize the health and safety of women. Our state is at a crossroads, and Nebraska voters will decide the outcome.

WHAT'S IN PRO-ABORTION INITIATIVE MEASURE 439?

“All persons shall have a fundamental right to abortion until fetal viability, or when needed to protect the life or health of the pregnant patient, without interference from the state or its political subdivisions. Fetal viability means the point in pregnancy when, in the professional judgment of the patient’s treating health care practitioner, there is a significant likelihood of the fetus’ sustained survival outside the uterus without the application of extraordinary medical measures.”

Jeopardizes Women’s Health & Safety

Allows abortionists and individuals who are not licensed physicians to influence the medical decisions of a woman in crisis.

Abortion Against Her Will

Creates a right to abortion for “all persons,” which allows men to force a woman into an abortion against her will.

Taxpayer-Funded

Paves the way for taxpayer funding of elective abortions in Nebraska, even against strongly held moral and religious objections.

Human Trafficking

Overturns parental notification laws, which allows predators and human traffickers to continue their abuse in the shadows.
